

MASU INDIA CONTROL

MIC-BLM-01

BRICK LINING MACHINE

- New Machines supply
- Rental of Machines
- AMC, Spares, Service & Retrofit Solutions

Masu India Control is a full service Hydraulics & Pneumatic engineering company, serving the customers for more than two decades of work in this field. While we have served almost all the major sectors of industries, we have gained our expertise majorly in the cement sector where we have served around 80 cement plants of almost all the major business Groups across India.

After having thorough experience in Cement plants and after understanding their key concerns Masu India Control have indigenously designed and developed, state of the art Brick Lining Machine, **MIC-BLM-01**

MIC-BLM-01 is a result of deep understanding of customers' requirement, the users' pain area and with the motive to provide utmost convenience to the operators who operate these machines in the extreme working conditions.

Types of Machines

MASU DATE Machine		MASU Ring Machine	
Model	Kiln Dia (mm)	Model	Kiln Dia (mm)
MA-30/36	3000-3600	MB-30/36	3000-3600
MA-38/46	3800-4600	MB-38/46	3800-4600
MA-40/52	4000-5200	MB-40/52	4000-5200
MA-45/60	4500-6000	MB-45/60	4500-6000

Machine Weight & Load capacity

Platform Loads	Maximum 2.500 Ton
Central Platform	1.0 ton/m ²
Side Planks	500kG
Extension	300 kG
Net Weight	1300-2000kG
Gross Weight	1800-2700kG

Salient Features

- Platform length of 1.8 m
- Wooden Planking material 2cm thick (in MASU DATE machine).
Aluminum perforated planks (in MASU Ring Machine).
- 6061-T6 High tensile strength Aluminum Frame
- Safety check valves to ensure that cylinders hold pressure in case of air loss.
- High quality Pneumatic type cylinders.
- Dual arch structure which moves along rails on the work platform.
- Adjustable Arch components as per the kiln sizes.
- Air filters are provided to keep cylinders working & removes dirt & water.
- Polyurethane Casters with wheel locks.
- Standard hand pumping keying Jack. Fingertip controlled keying jack available as optional.
- Shim driver kit includes Shim driver gun, 10' hose, 2 heads & 4 shanks.
- Shim driver holster allows for quick access & easy storage.

Site requirements

- Compressed Air – Min 6.0- 8.50 (kg/sq cm)
with air volume of 10 cu ft/min
- Electrical supply – 230V, 50hz 1 ph

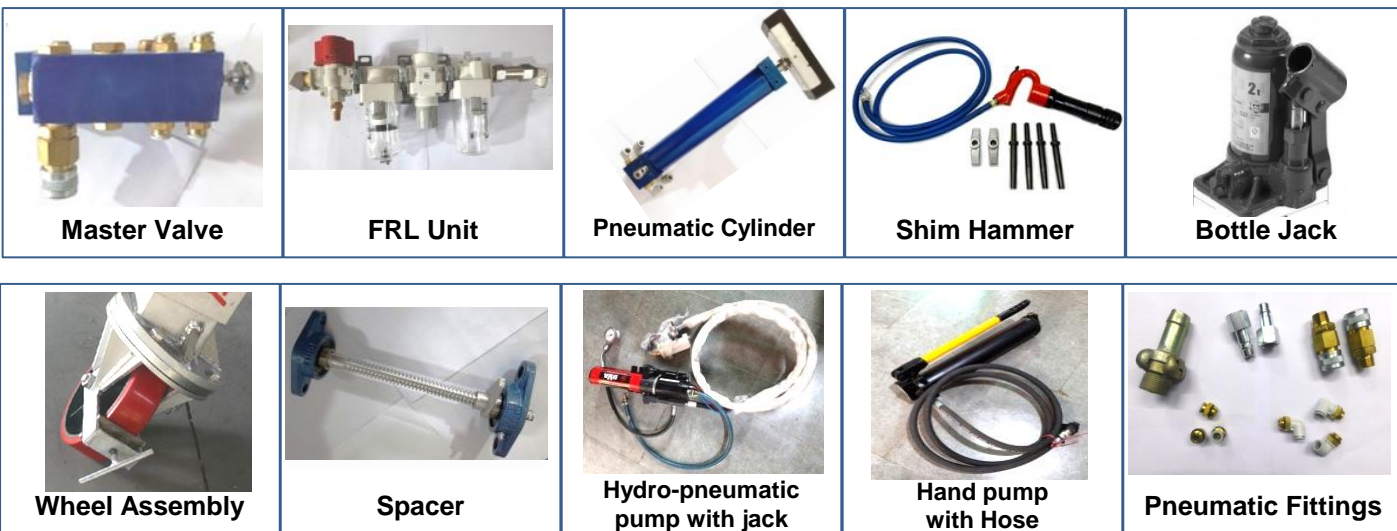

AMC Work, Spares, Service & Retrofit of existing Brick Lining Machines

Masu India Control also offers Annual maintenance Contract, Spares, service & retrofit work of all the leading manufacturers of Brick Lining Machines. We have expertise in handling all the international brands of Brick lining machines available in the market viz, RHI, Bricking Solutions etc.
